The Web Site Self-Maintainer Solution is built using the CatholicWeb.com EZBuilder tools. Once your Self-Maintainer site is set-up, you will be able to change the look and feel of your site with a few mouse-clicks. Using the EZBuilder tools you will also be able to add graphics or include automatic content from a number of other Catholic publishers, including St. Anthony's Messenger and FAITH Magazine.

CatholicWeb.com also offers premium add-ons, including an online Calendar and eEnvelope, which allows you to accept online donations from your parishioners.

The ParishWebmaster.com Web Site Self-Maintainer Solution requires no knowledge of HTML or Web site design, nor does it entail the expenditure of additional funds in order to make changes and updates to the site. All that is needed is an Internet connection and a standard Web browser (Internet Explorer, Netscape Navigator, etc...). However, it is the least flexible of our Web design packages, limiting you to the templates and functions included in the CatholicWeb EZBuilder tools and add-ons.
